MID-TOWN PARK WILL GET A FACE LIFT

Ground Breaking Ceremony for the Cuddy Park Renovations.

 **Video High**

ANCHORAGE – A face lift is on the way for a mid-town Anchorage park. The Cuddy Park, eventually could be the main focus for the mid-town business district.

Park bond dollars, Federal funding and private donations will allow the city to turn Cuddy into a multi-purpose park.

Officials say that they intend to make the recreation area a vital storm water and flood facility for Fish Creek. Other park improvements include an Amphitheater, a speed skating oval and a series of walking paths and trails will lead to the businesses near by.

The Chair of the Anchorage Park Foundation, Victor Molozzi said, "we are going to create some storm water retention which will create a pond for ice skating during the winter time and during the summer for ducks, also, for storm water retention, so it's a very environmentally sound way to develop a park."

The park will closed for the rest of the summer because of the construction.
